

July Holiday Programme

With the traditional problems of poor ground conditions and winter weather, during the next holiday break we have decided to again take our club holiday programmes to an indoor centre.

Action Indoor Sports Stadium is an ideal purpose built venue featuring indoor pitches with synthetic grass surfaces and has been booked exclusively by our club over this holiday period.

It will give us a chance to work in a safe and comfortable environment without the fear of cancellations.

Initial details of our programmes are listed below and a registration form will be posted on our web site shortly.

As this is expected to be another popular programme and places will be limited, early registration is suggested.
